Notes: Rates are based on annual population estimates provided by the Demographic Research Unit, California Department of Finance.

Population breakdowns by gender will not add to total because of variations in population source data.

The "percent of population" category for male and female was calculated using the sum of the male and female populations.

¹ The "male" category includes homicide victims whose gender could not be determined: 1993 includes two, 1994 includes seven, 1995 includes six, 1997 includes five, 2000 includes two, 2001 includes one, and 2002 includes one.
