

DO NOT CALL COMPLAINT CHECKLIST

Keep this checklist by your telephone to log suspected Do Not Call violations.

E-mail your complaint to the FTC at www.donotcall.gov or call 1-888-382-1222 (TTY 1-866-290-4236).

In your complaint, you will need to provide the date and name of the company calling you and/or telephone number of the company that called. Without the information, possible violations cannot be investigated.

NATIONAL DO NOT CALL REGISTRY	
APPROXIMATE DATE YOU REGISTERED:	_____
Phone Numbers Registered:	_____

Once you place your number on the National Do Not Call Registry for three months, most telemarketing calls will stop – but not all. Still allowed are:

- Calls from political organizations, charities and telephone surveyors.
- Calls from companies with which you have an existing business relationship. (A company may call for up to eighteen (18) months after you make a purchase or for three (3) months after you submit an inquiry or application.)
- Calls from companies that you've given written permission to call you.

Whether participating in the National Do Not Call Registry or not, you can stop companies from calling you by telling them you do not wish to be called. Company-specific “do not call” rules still apply to all telemarketing calls, including those made by companies with which you have done business.

Call Log: Record Information To Use In Filing Your Complaint

Date of telemarketing call _____
Name of business or organization calling _____
Caller's phone number _____
