Submitter (Party Name)	California Parties
Contact or Representative (Name, Org., Address and Phone No.	Richard L. Roberts (202) 429-6756 Catherine M. Giovannoni (202) 429-8072 Steptoe & Johnson LLP 1330 Connecticut Avenue, N.W. Washington, D.C. 20036
Finding of Fact	Prices in the ISO and PX Spot Markets before October 2, 2000 were not consistent with Sellers' market-based rate tariffs and those of the ISO and PX.
Relief Requested	Given the totality of the wrongful conduct involved, it is not possible to isolate the harmful effects of any one violation or any one bad actor. The Commission, therefore, should (1) reduce the market clearing prices in the ISO and PX spot markets to the Mitigated Market Clearing Price cap for the period from May 2000 through June 20, 2001, (2) apply the MMCP to all spot market sales in the ISO and PX, even if the seller was able to coerce the ISO into out-of-market sales of as long as one month or into energy exchanges rather than sales for cash, and (3) apply the MMCP to all short-term sales to the California Energy Resources Scheduler that was filling the role originally filled by the PX or responding to sellers' refusals to sell to the ISO.

Finding of Fact	Prices in the ISO and PX Spot Markets from October 2, 2000 to June 20, 2001 were unjust and unreasonable.
Relief Requested	Given the totality of the wrongful conduct involved, it is not possible to isolate the harmful effects of any one violation or any one bad actor. The Commission, therefore, should (1) reduce the market clearing prices in the ISO and PX spot markets to the Mitigated Market Clearing Price cap for the period from May 2000 through June 20, 2001, (2) apply the MMCP to all spot market sales in the ISO and PX, even if the seller was able to coerce the ISO into out-of-market sales of as long as one month or into energy exchanges rather than sales for cash, and (3) apply the MMCP to all short-term sales to the California Energy Resources Scheduler that was filling the role originally filled by the PX or responding to sellers' refusals to sell to the ISO.

	302; CA-292
Finding of Fact	Sellers falsely reported to the ISO that generating units were forced out of service for mechanical reasons when the plant's own records show that the plant was capable of normal operation.
Relief Requested	Given the totality of the wrongful conduct involved, it is not possible to isolate the harmful effects of any one violation or any one bad actor. The Commission, therefore, should (1) reduce the market clearing prices in the ISO and PX spot markets to the Mitigated Market Clearing Price cap for the period from May 2000 through June 20, 2001, (2) apply the MMCP to all spot market sales in the ISO and PX, even if the seller was able to coerce the ISO into out-of-market sales of as long as one month or into energy exchanges rather than sales for cash, and (3) apply the MMCP to all short-term sales to the California Energy Resources Scheduler that was filling the role originally filled by the PX or responding to sellers' refusals to sell to the ISO.
Index Exhibit Number (s) pertaining to the Finding of Fact	CA-10; CA-165
Finding of Fact	Sellers placed units on "reserve shutdown" meaning that they shut the plant down for economic reasons when no maintenance was required, during times when the ISO had declared a system emergency.
Relief Requested	Given the totality of the wrongful conduct involved, it is not possible to isolate the harmful effects of any one violation or any one bad actor. The Commission, therefore, should (1) reduce the market clearing prices in the ISO and PX spot markets to the Mitigated Market Clearing Price cap for the period from May 2000 through June 20, 2001, (2) apply the MMCP to all spot market sales in the ISO and PX, even if the seller was able to coerce the ISO into out-of-market sales of as long as one month or into energy exchanges rather than sales for cash, and (3) apply the MMCP to all short-term sales to the California Energy Resources Scheduler that was filling the role originally filled by the PX or responding to sellers' refusals to sell to the ISO.
Index Exhibit Number (s) pertaining to the Finding of Fact	CA-60; CA-17; CA-18; CA-249; CA-258; CA-10
Finding of Fact	Sellers withheld by not bidding their output into the market even though the plant was fully operational. This withholding behavior occurred during numerous system emergencies.

Relief Requested	Given the totality of the wrongful conduct involved, it is not possible to isolate the harmful effects of any one violation or any one bad actor. The Commission, therefore, should (1) reduce the market clearing prices in the ISO and PX spot markets to the Mitigated Market Clearing Price cap for the period from May 2000 through June 20, 2001, (2) apply the MMCP to all spot market sales in the ISO and PX, even if the seller was able to coerce the ISO into out-of-market sales of as long as one month or into energy exchanges rather than sales for cash, and (3) apply the MMCP to all short-term sales to the California Energy Resources Scheduler that was filling the role originally filled by the PX or responding to sellers' refusals to sell to the ISO.

Finding of Fact	Sellers withheld generation from the market by bidding high, and in excess of its costs, so as to deliberately price itself out of the market.
Relief Requested	Given the totality of the wrongful conduct involved, it is not possible to isolate the harmful effects of any one violation or any one bad actor. The Commission, therefore, should (1) reduce the market clearing prices in the ISO and PX spot markets to the Mitigated Market Clearing Price cap for the period from May 2000 through June 20, 2001, (2) apply the MMCP to all spot market sales in the ISO and PX, even if the seller was able to coerce the ISO into out-of-market sales of as long as one month or into energy exchanges rather than sales for cash, and (3) apply the MMCP to all short-term sales to the California Energy Resources Scheduler that was filling the role originally filled by the PX or responding to sellers' refusals to sell to the ISO.
