

CanoScan[®] LiDE 20

USB Flatbed Scanner

Easy Scans. Must-Have Price.

- 1 cable for USB & power
- 48-bit for over 281 trillion possible colors
- Z-Lid™ expansion top
- Up to 600 x 1200 dpi resolution
- Scan, copy or e-mail photos at the touch of a button

Compact and easy to use.

The CanoScan LiDE 20 USB Flatbed Scanner is one of the world's most compact flatbeds—yet offers big performance and big savings. Just over an inch high, it packs in all the features you need to scan images, copy documents or e-mail your favorite photos. All with true “one-touch” operation. The LiDE 20 scanner is so intuitive and easy to use, first-time users can get expert results in remarkable color resolution up to 600 x 1200 dpi and up to 48-bit depth with over 281 trillion possible colors. To scan, just place the photo on the platen and push the “scan” button—that's it. “Copy” and “e-mail” functions are just as simple. Set up and operation is made even easier with just one cable for power and USB—no extra AC adapter needed.

Scan several photos at once—or multi-page documents into a PDF file.

Scan multiple photos at once with the push of a button. “Multi-Scan mode” is automatically activated and scans all the pictures in a single pass, preparing a separate image file for each. It will even adjust any slightly miss-aligned photos. Scanning multi-pages into a PDF file is just as easy. Innovative software even allows you to save your photo memories to CD's as easily as scan, click and burn*

Canon innovations.

The LiDE 20 scanner is small but can tackle the big jobs. The exclusive Z-Lid expansion top lifts 1" high and stays flat for scanning books and magazines. Most other scanner covers lift only at an angle—not lying flat for thick items, often resulting in poor scans. Canon integrated QARE 2.0 (Quality Automatic Retouching and Enhancement) technology is designed to help perfect every scan by automatically removing much of the dirt and scratches from images, helping you to look like a pro.

* Windows only.

TRUE HARMONY
IN A DIGITAL WORLD.

CanoScan LiDE 20

USB Flatbed Scanner

Technical Information*
